

George Washington Highway (Route 17) Widening York County, Virginia

Project Facts

Start Date: August 2013

Completion Date: December 2016

Construction Cost: \$25.2 million

Owner/Client: Virginia Department of Transportation

Owner POC: Joe Ludwig, VDOT Area Construction Engineer: 757-253-5222

State Project Number: UPC 60843, 6017099129

General Contractor: E.V. Williams

Project Description

The roadway improvements in this project increased the capacity of George Washington Memorial Highway (Route 17) between Hampton Highway and Wolf Trap Road, from four lanes to six lanes, with three lanes in each direction. Other features of the project included a raised median, curb and gutter, and a shared-use path parallel to the northbound lane from Mill Road to Showalter Road. The two existing bridges over the Poquoson River were replaced with one bridge carrying six lanes of traffic and a shared-use path.

The project was included in the FY2012-2017 Six-Year Improvement Program.

Quinn provided a construction manager, construction inspector and public affairs specialist for this project.

Key Services

- Full-time construction management & inspection
- Environmental & erosion & sediment controls inspection
- Work zone coordination
- Maintenance of traffic monitoring
- Quality assurance
- Materials approvals & testing
- Submittal & schedule review
- Prepared monthly estimates (CPEs)
- Document control
- Community outreach
